

THE EQ100M

This unit comes with a hot-dipped galvanized blast pot - integral hand truck assembly; stainless steel control panel, plumbing and components, along with a 10-gallon, UV-protected poly water tank. The EQ100M, when coupled with any air compressor capable of producing 185~350 CFM @ 100+ psi has the ability to blast from 30~130 psi. The EQ100M comes standard with 50 feet of blast hose, pneumatic or electric dead man control, a #7 nozzle, and a low tank water shut-down system. The unit can be loaded into a pickup truck using the slide-rails to assist, or by using the lifting eye. It can be stowed or moved while on its back utilizing the two additional rollers at the handle.

- Holds 250lbs of abrasive
- Fully portable design with slide-rails
- Uses standard 185cfm compressor
- Utilizes any abrasive heavier than water

2.1-CF, hot-dipped galvanized, spring-sealed pot assembly with auto vent.

Easily portable, large wheels, rolls while laying down & slide-rails.

Two internal float valves; to regulate water level & activate low water shut-down system.

Standard garden hose connection provides enough water to keep the tank full during blasting & wash down.

EQ100M

GENERAL

Dimensions	33.75" L x 25" W x 46" H
Weight	360 lbs. Dry / 550 lbs. Wet
Air Capacity	165 CFM - 350 CFM
Pot Media Capacity	250 lbs.
Hose Length	50 ft. Standard Blast Hose
Available Accessories	Hose Extensions, Extension Wands & Nozzles
Warranty**	Complete Machine for 1 Year From Original Purchase Date, Less Wearable Parts

EcoQuip® machines can be used on virtually any surface. They are gentle enough to restore delicate surfaces like teak and other hardwood structures; while aggressive enough to remove any industrial coatings, rust and or mil-scale.

EcoQuip® is ISO 9001:2008 Certified Manufacturing Company.

BENEFITS

- Reduced Media Consumption (50-150 lbs of media an hour)
- Reduced Run-Off (Less than 1 qt per minute)
- Suppresses up to 97% of airborne particles (Lowering containment cost)
- Less waste material to dispose (Reducing transport and disposal cost)
- Effective in rain and high humidity
- Remove coatings w/o damaging sub-surface
- Standard Abrasive Grit heavier than water*
